Subject: Do not ship nuclear waste!

Part of Records Package / Supplement / Correction

To whom it may concern,

I am writing to voice my opposition on shipping nuclear waste to Yucca Mountain, Nevada. I am a resident of Shrewbury, Missouri, and do not want nuclear waste shipped through my town. In the wake of the September 11th terrorist attacks, we must assume that we will be targeted again. Trains filled with nuclear waste seem to be a very dangerous and deadly target. Instead of shipping this waste across the country, keep it where it is produced. Or better yet, find an alternative to nuclear energy. Knowing how dangerous it can be, yet not knowing how to denature it, just doesn't make any sense. Not long ago a train running through Webster Groves, a close neighbor, derailed spilling its contents onto a street filled with families. Imagine this happening to a train filled with deadly contents. I hope that the Department of Energy will consider these concerns as well as alternatives before sending nuclear waste through my town.

Sincerely,

Kimberly George
